HAWK COMMUNICATIONS SOLUTIONS

Hawk Aerospace has a long history of providing superior communications systems and solutions to customers in both the private and public sectors.

We tailor make our solutions to fit our customer's requirements and can be scaled according to your needs. Together with top quality training and support our system is the ideal solution to manage your communication requirements.

With decades of experience, we have learnt that assigning the appropriate level of expertise and practical experience throughout a project lifecycle is key component of any successful project.

Believing in Practical Solutions

Bringing New Ideas to the Future World of Communications

FULLY INTEGRATED SOLUTIONS

The Hawk Mercury System provides you with a seamlessly integrated solution that fits into your existing infrastructure.

Our solutions are designed with ease of use and practicality in mind to help you reach any part of your operations whenever and wherever you need to.

SITUATIONAL AWARENESS CAPABILITIES

The Hawk Mercury can be upgraded together with your communications system to include a state of the art Situational Management System.

This gives you the tools to maintain a clear real-time picture of the operational situation allowing you to take the right decisions at the right time.

DRONE INSPECTIONS & MONITORING

The Hawk Mercury can also provide you with Drone system that allow you to inspect & monitor your communications infrastructure.

This solution is cost-effective, simple to operate and reduce the risk of having persons up very high towers.
