

YOUR ENFORCEMENT PARTNER

www.hawkaerospace.eu

REMOTE LAW ENFORCEMENT

Using similar imaging equipment as those used on conventional manned aircraft, the Hawk Governor is designed specifically for operations such as Crowd Control, Traffic Accidents, Incident Management and Criminal Activity Monitoring.

High Resolution Cameras allows enforcement officers to identify and monitor individual trouble makers or even follow crowd patterns for effective crowd management.

Our Fully Integrated System provides you with an Affordable, Compact & Adaptable platform that is designed for easy deployment on crime and tactical scenes. This system is also linked to Operations HQ from where the whole operation is managed.

Integrated Policing & Enforcement

Bringing New Solutions to the Future of Law Enforcement

The Hawk Governor is directly linked to Real-Time Flight Management System. This allows the drone to be remotely operated directly locally or from HQ allowing you to handle and change tactics as the situation develops.

Your system can operate using the following system:

- ✓ Completely Autonomous
- ✓ GPS-guided mapping mission
- ✓ Live-Streaming Interactive Flight
- ✓ 'Manual Live' on Demand

The system can also be linked to officers in the field using a dedicated Ground Station or an On-Board Operations System for vehicles.

FLEXIBLE, ADAPTABLE & VERSATILE

System Operations Customisations:

- ✓ Criminal Detection & Tracking
- ✓ Crowd Pattern Management
- ✓ Traffic Visibility & Management
- ✓ Incident Monitoring & Management
- ✓ Illegal Activities Monitoring
- ✓ HAZMAT Detection

Using a simple interface, the Hawk Governor System can be operated by anyone. At the same time, our highly skilled and experienced pilots and engineers can provide you with the best and most proficient training for your officers.

GET IN TOUCH

Our team at Hawk Aerospace are passionate about Engineering Tomorrow's Technological Solutions for today's evolving problems.

We combine decades of experience in innovation with dedication towards great customer service to provide you with the desired solutions and customer satisfaction.
